

2020 Annual Conference Sponsorship Information

March 6-8, 2020 at
Villas By The Sea, Jekyll Island

The Environmental Education Alliance of Georgia (EEA) has been serving environmental educators throughout Georgia since 1992. We strive to achieve our vision of a statewide culture of environmental literacy and stewardship by supporting environmental educators. We believe environmental education encourages inquiry, investigation, and the development of skills that enable responsible decisions and actions that positively impact the environment.

The Annual Conference travels regionally around the state and we are excited to be on the beautiful Georgia coast for the 2020 conference. The annual conference has traditionally been attended by over 120 environmental educators.
