

## Acknowledgments

The Environmental Education Alliance, Inc. (EEA), a Georgia non-profit organization, is grateful to Environmental Educators of North Carolina (EENC) which, in partnership with Kentucky Association for Environmental Education, provided a sub-grant for this project from Environmental Protection Agency Region 4's Environmental Education Grant #01D14520. The sub-grant covered a portion of the costs of creating the Zero Waste Heroes lesson collection and Teacher Guide as a companion curriculum for the "Don't Waste It" project. Zero Waste Heroes aligns with the Georgia Standards of Excellence in Science and the 3-dimensional learning approach advanced by the "Framework for K-12 Science Education."
