

Monarchs and More Curriculum
Grade Level Lesson Comparison

Curriculum	Section	Lesson Title	Page # K-2	Page # 3-6	Page # MS
Life Cycle	Rearing and Observing				
		1. Getting to Know Your Caterpillars 1. 1. Focus on Features	54	54	54
		2. Make a Caterpillar Book 2. 2. Rearing Monarch Larvae	56	57	56
		3. Keeping a Journal 3. 3. Preserving and Observing Butterfly Wings	58	59	58
		4. Keeping a Monarch Calendar 4. 4. Butterfly Scales	59	61	60
		5. How Much Do Caterpillars Eat in One Day? 5. Art and Literature Projects	62	65	
		6. Do Caterpillars Eat More As They Get Bigger? 6. 5. Origami Butterflies	65	72	62
		7. Making Life Cycle Picture Cards & Books 7. Monarch Metaphors	69	76	
		8. Additional Activities on Metamorphosis	77		
	Collecting Data and Keeping Records	8. 6. Measuring Larval Growth and Development		78	66
		9. The Very Hungry Caterpillar		83	
	Student Journaling and Writing	10. 7. Keeping a Monarch Journal		87	71
		8. Additional Student Projects			81
		11. Fact or Fiction?		97	
Migration	Migration				
		1. 1. Winter is Coming 1. Migration as a Response to Winter	80	100	84
		2. The Monarch's Journey	83		
		3. 2. 2. Map the Monarchs' Route	85	103	87
		4. 3. Monarch Migration Game 3. Flight Directional Analysis	88	106	90
		4. 4. Monarch Tagging Role Play		110	93
		5. 5. How Heavy Are the Tags?		113	97
		5. 6. 6. Track the Spring Migration with Journey North	92	114	98
		6. 7. 7. Milkweed Monitoring	94	116	100
		8. 8. How Far Can a Butterfly Glide?		119	103
		9. 9. Migration Story		125	109
	Annual Cycle	10. The Double Lives of Monarchs		126	
		7. 11. Seasonal Science 10. Schoolyard Phenology	97	130	110
		12. The Biological Clock		138	
Ecology	Habitat				
		1. What is Butterfly Habitat? Make a Field Guide 3. Make a Field Guide to a Monarch Habitat 3. Make a Plant Field Guide	106	149	123

Monarchs and More Curriculum
Grade Level Lesson Comparison

		1. What Is Habitat? 1. Butterfly Habitat		143	117
		2. What is a Butterfly Habitat? Make a Wall Mural	109		
		2. 2. Interspecific Interactions		147	121
		3. 4. Who Ate My Food? 4. Make a Butterfly and Moth Field Guide	111	152	126
		4. 5. Pollinators and Flowers 5. Pollinator Syndromes	113	154	127
	Population Growth	6. 6. How Many Grandchildren?		159	133
		5. 7. 7. Why Isn't the World Overrun with Monarchs?	118	161	135
		8. Mortality in Classroom and Wild Monarch Larvae 8. Rates and Causes of Mortality in Monarch Larvae		163	137
		9. 9. Monarch Mishaps: A Game of Survival		167	141
	Defenses	6. 10. 10. How Living Things Protect Themselves	120	175	149
		7. 11. 11. Plant Defenses	122	176	150
		8. 12. 12. Hide a Butterfly	124	178	152
		13. 13. Toothpick Prey		181	155
		9. 14. 14. Warning Coloration	127	183	157
		10. 15. 15. Startle Coloration	128	184	158
		11. 16. 16. Mimicry	130	186	160
		12. 17. 17. Monarch Protection	132	189	163
		13. Bug safari	136		
	Biodiversity	18. Measuring Species Diversity			167
		14. 18. 21. Disease Tag, Plant Diversity and Disease	138	193	180
		15. 19. 19. Arthropod Population Sampling	145	200	170
		20. Species Area Curve and Plant Diversity			175
Systemics	Classifying Organisms				
		1. 1. 1. Classifying Shoes	149	206	188
		2. 2. Keying Out Kids	150	207	
		3. 3. Sorting Animals 2. More Than Mammals	154	211	187
		4. 3. An Introduction to Classification		215	194
		5. 4. Scientific Names		219	198
		6. 8. Additional Projects on Systemics		223	219
	Arthropod Diversity	4. Is It An Insect?	158		
		7. 7. Arthropod Adventure (A Scavenger Hunt)		225	216
		5. 8. A Bug's Life: Insect Metamorphosis	160	228	
		6. Insect Life Cycles Puppet Show	163		
		7. Ordering Insects Around 9. 5. Order in the Kingdom, Research in Insect Orders	168	231	202
		8. Moths vs. Butterflies 10. 6. Comparing Butterflies and Moths	177	242	213
Experiments with Insects	The Process of Inquiry				
		1. 1. 1. The Man Who Loved Insects	181	246	222
		2. 2. Coming Up with a Question		250	226

Monarchs and More Curriculum
Grade Level Lesson Comparison

		3. 3. Generating Hypotheses		256	232
		4. 4. Designing an Experiment		259	235
		5. 5. Analyzing and Presenting Data		268	242
		6. 6. Writing Conclusions with the RERUN Method		278	249
		7. 7. Presenting Results of Experiments		280	251
		8. 8. M & M Statistics		287	258
		9. Analyzing Data with Simple Statistical Tests			260
	Sample Experiments	2. 9. What Do Monarch Caterpillars Eat?	185	289	
		3. 10. Where Is My Food?	187	291	
		4. How Does Temperature Affect Time in the Pupa? 11. Time in the Pupa Stage?	190	294	
		5. How Does Handling Larvae Affect Their Survival?	194		
		12. Additional Questions for Investigation		298	
Monarch Conservation					
		1. 1. Is Our Community a Good Home for Monarchs?		300	278
		1. 2. 2. Planting a School Garden	197	302	280
		2. 3. A Garden for Butterflies	200	305	
		3. What Do Monarchs Need?	205		
		4. 3. Monarchs in the Balance: Dilemma Cards		310	283
		4. 5. Who Lives Here?	207	315	
		6. 4. Writing and Problem Solving		319	288
		5. Management Plan			289
