

Advanced Training for Environmental Education in Georgia

Specializations Workshop Details

(Revised 1/15/16 KMZ)

Purpose:

To advance content knowledge and skills of participants in their specific field of interest.

Requirements:

- Participate in 30 hours of ATEEG approved workshops and conferences.
 - Must complete a minimum of 2 of the following: Project Learning Tree, Project Wet, Project Wild Professional Development courses as part of that 30 hours
 - Learning Tree, WET, WILD Courses taken within the last three years can count. Need to provide proof of participation.
 - Only 6 or 10 hour Learning Tree, WET, or WILD Courses allowed.
 - A maximum of 10 hours credit will be awarded for attending an environmental education related conference such as EEA, Outdoor Classroom Symposium, GAME, NAAEE, or NMEA.

- Can begin taking specialization workshops after Core Course 1

- Must complete and submit the Professional Development Course (PDC) form for documentation.
 - It is the responsibility of the participant to complete and submit the PDC form to the Program Administrator within 30 days to receive credit for the professional development course.

Approved courses:

- If uncertain about a course, especially one offered out of state or with an informal focused training, check with the program administrator for approval at least three weeks prior to the workshop you are interested in.
